

KCF800

KCF800

KCF800 is a high-strength belting product. It is a Leno weave, open mesh material intended for use in forced hot air dryers. It has a small mesh opening, which is well suited for conveying small products. The KEVLAR® fabric provides excellent moisture resistance as well as exceptional flex durability. The unique properties of KCF800 allow for fabrication options not available with PTFE-coated fiberglass belting products.

Typical Physical Properties

Property	Units	Value
Widths Available	Inches	75
Weight	Oz./Yd. ²	12.0
Thickness	Inches	0.034
Breaking Strength (Warp)	Lbs./In.	400
Breaking Strength (Fill)	Lbs./In.	400
Porosity	SCFM/Ft. ²	1100
Elongation at 40 lbs.	%	1.0 Maximum
